Over 500 clinicians have completed the LLU School of Dentistry AAID MaxiCourse program.
The LLU/AAID MaxiCourse® brings the experience of widely regarded instructors and clinicians from Loma Linda University and around the world.

The 2018 LLU/AAID MaxiCourse® offers 300 hours of lectures, hands-on workshop sessions, live surgical demonstrations, online lectures, and clinical experiences that place dental implants on participating patients. The LLU/AAID MaxiCourse® schedules include:

### Hands-on Sessions
- Pig jaw GBR surgery workshop instructed with Dr. Istvan Urban
- Cadaver surgery - Bone grafting techniques and head anatomy dissections instructed with Dr. Matteo Chiapasco
- Zimmer Institute workshop - Simulation laboratory in implant placement and prosthodontics
- NobelBiocare workshop – Implant placement utilizing guided surgery
- Dentium workshop - Implant placement and maxillary sinus grafting techniques
- Straumann workshop - Implant placement and prosthodontics

The 10-month sessions (two days per month) also help prepare participants to take the written portion of the AAID Associate Fellow Membership Examination. The didactic portion of the course includes information for beginning, intermediate, and advanced clinicians in implant dentistry who wish to expand their knowledge in this field.

### Program Information

Starting with basic concepts, diagnosis, treatment planning, dental implant surgery, and implant prosthodontics, attendees develop sequential treatment plans on their own patients and participate in performing surgeries with the assistance of experienced faculty members and residents of the Advanced Education Program in Implant Dentistry.

Attendees also experience hands-on workshops during which procedures such as cone-beam imaging analysis, simulated patient-based dental implant surgery on life-like mannequins, and guided-bone regeneration procedures on cadavers and pig jaws complete their understanding of basic and advanced dental surgical procedures.

### 2018 Schedule

**Course Dates:**
- March 8 – 9
- April 5 – 6
- May 3 - 4 (offsite course)
- May 31 - June 1
